

WHITE PEAK WALK 2020

Unfortunately this years White Peak Walk has under the present circumstances been cancelled, it is only the second time in its 34 years that we have had to do this the last time was for the foot and mouth epidemic in 2002 .

There were about 300 entrants for this years walk, to refund them all would have been a logistical nightmare as most entries now are by BACS. We decided to give them the option of being carried forward to next year , having a refund or donating their entrance fee, this has proved successful with very few asking for a refund with the majority wanting be moved to next year but the remaining of just over 100 very generously donating their entrance fee to our causes. This has given us the opportunity of at least having some monies to donate to our usual causes.

We decided that what we had would have to be spread fairly widely,

Kinder Mountain Rescue	£450
RAYNET	£350
Playing Fields	£200
Air Ambulance	£200
Monyash School	£150
St. Leonards Church	£150
Methodist Chapel	£150
Helens Trust	£150

We are pleased that we have been able to donate something to many groups realising that it is a poor year for all fundraising, it is hoped that next year we will be back to normal and all helpers who are resting this year will once again be called into action so please don't get too complacent.

There is still enough money in the pot for a village Christmas Tree if we are able to have a Christmas this year.

Best wishes to you all, Colin , Peter , Al and Steve
