### Other information

We have recently seen a rise in the theft of high value mountain bikes both when attached to racks on the rear of vehicles and from shed breaks. A suspect has recently been arrested, interviewed and charged in connection with a theft of an electric bike in Hathersage however we would advise residents of the Dales area to be mindful of the security regarding such high value items as they are increasingly being targeted by thieves. Anyone who would like their bike marking should contact the SNT using our email address below to arrange this.
