

Traffic Calming Progress Report

following public meeting held 3rd March 2025

Since the meeting on Monday, I have carried out the following actions:

- I have emailed Ian Parker from Highways
- I requested advice around the process for designating a village as a 20mph zone, irrespective of Council Policy.
- I made enquiries as to the use of the Speed indicator Devices and if they are available still.
- From other enquiries made it appears that that they are in use in certain areas of the Dales.
- I am indebted to Mandy Johnson who passed on information regarding Speed indicator Devices from a company called Elan City.
- With the assistance of our Clerk Lesley, we are building a strong relationship with Stoney Middleton Parish Council.
 - ▶ They suffer many of the same issues as Monyash.
 - ▶ The Chair of the Parish Council is currently liaising firmly with local authorities trying to seek solutions to their issues.
 - ▶ She is a very driven lady and has offered support and inclusion to ourselves. Our Parish Clerk is progressing this.

I have been made aware of a company called Design Midlands.

Essentially they are a company who will come into an area such as ours and effectively carry out surveys etc to identify traffic issues and associated road safety issues..

I have filled out a contact form and will await their reply. There are other similar companies across the UK.

A large number of traffic cones have been obtained by Andy Howard as well as some cautionary leaflets regarding parking on pavements.

It seems the weekend is going to be nice – the cones will be positioned at the crossroads and be extended to past Phil and Jan's property.

Rick Harris is gathering a few other people to help with this.

I suggest we set them out at the end of play today 7.3.25...say 5pm?

We should push on and get the Sub Committee up and running as an absolute priority. I will start the process and report back asap.

That's all for now,

Jon

Chair, Monyash Parish Council, 7th March 2025
